

# SUP Witches Paddle on the Willamette

**Put on your costume\*** and cast a spell to protect the environment (and prevent a frightful future)

This action will raise awareness about the COP26 meetings in Glasgow (starting October 31) and provide information for speaking up. We will also be educating the public about Zenith Oil and actions to make sure the permit denial stays in place.

We need more activists to help us with our scary action. Meet between SE corner of OMSI parking lot and Tilikum Bridge at 11:00 am on Saturday, Oct. 30

\* Wear **orange** or **red** if you want to be grouped with villain INFERNO FLAMES. Wear **grey** or **black** if you want to be grouped with evildoer OILY SLICK. Or wear your own climate chaos costume!

**extinction  
rebellion**
